

BLAZE RACING SYNTHETIC BLEND 5W-30

DESCRIPTION

BLAZE RACING SYNTHETIC BLEND 5W-30 with TS³ is a multi-grade synthetic blend engine oil designed to give maximum engine protection for improved oxidation stability, better wear protection, and better low-temperature performance over the life of the oil.

The unique additive technology called Thermal Stress Stabilizing System (TS³) keeps the oil stable even at extreme temperatures, providing ultimate protection from engine stress.

GRADE

- SAE 5W-30

APPLICATION

- Automobile and light duty trucks for gasoline where API SM are recommended

PROPERTIES

- Better thermal stability and oxidation resistance for longer oil drain interval
- Better volatility and viscosity properties
- Better wear protection for reduced vehicle maintenance cost
- Improved deposit protection

QUALITY LEVELS

- API SM

TYPICAL CHARACTERISTICS

Specific Gravity at 15.6°C	0.8613
Flash Point, COC, °C	210
Color, ASTM	L2.5
Kinematic Viscosity at 40°C, cSt	66.98
Kinematic Viscosity at 100°C, cSt	10.96
Viscosity Index	155
TBN (mg KOH/g)	7.0
